Researchers at the beginning of a career

Recruitment of a new talents - opportunity for new employments of the researchers at the University of Maribor

Based on the [Public Call for the Promotion of Researchers at the Beginning of a Career 2.1](#) (call number 5442-1 / 2018), the University of Maribor is looking for holders of a **doctoral degree** for **new employments in joint research collaborations with companies** and research groups from all 17 faculties of the University of Maribor.

Suitable candidates are **PhD holders from all fields of expertise** who have completed their doctorate studies in the period from **1 January 2011 to 5 October 2018** and **were not on July 13th 2018 employed at the University of Maribor**.

The expected duration of the employment will be from 1 April 2019 to 31 March 2022, presumably at the workplace H01900 - ASSISTANT WITH DOCTORATE IX (M / F). Research work will be carried out mainly in the research group of the Faculty of the University of Maribor in combination and partially (at least 9 months in the duration of employment) as well as at the participating company. Recruitment will be carried out only in the event that the application is selected.

The application will be prepared on the basis of the professional interest of the candidate, in accordance with the Priorities of the Slovenian Smart Specialisation Strategy (S4) and the related focus areas and technologies (the areas are further explained in the attached table) and the research strategy of the respected research group and participating company. Applications may be submitted by all faculty members of the University of Maribor (17) and their research groups.

Applications are awarded with bonus points if they include candidates which:

- had on July 13th 2018 permanent or temporary residence outside Slovenia and 1 year of work experience in the RRI field or were on July 13th 2018 employed outside Slovenia in the RRI field or;
- were on July 13th 2018 registered in the Register of the unemployed persons of the Employment Service of Slovenia or;
- were on July 13th 2018 employed in the RRI field in the Western Slovenia cohesion region.
